British Periodical Literature.

REPUBLICATION OF

The London Quarterly Review,
The Edinburgh Review,
The North British Review,
The Westminster Review,
—AND—
Blackwood's Edinburgh Magazine.

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise. As literary organs they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor, and forbearance, not often found in works of a party character.

They embrace the views of the three great parties in England—Tory, Whig and Radical—"Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig, and the "Westminster Review" Radical. The "North British Review" is more of a religious character having been originally edited by Dr Chalmers and now, since his death, being conducted by his son in law, Dr Hanna, associated with Sir David Brewster. Its literary characters is of the very highest order. The "Westminster" though reprinted under that title only, is published in England under the title of the "Foreign Quarterly and Westminster," it being in fact a union of the two Reviews formerly published and reprinted under separate titles. It has, therefore, the advantage by this combination, of uniting in one work the best features of both as heretofore issued.

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers in a beautiful clear type on fine white paper, and are faithful copies of the originals, Blackwood's Magazine being an exact fac simile of the Edinburgh Edition.

TERMS

For any one of the four Reviews,	$3 00 per annum
For any two do	5 00 "
For any three do	7 00 "
For all four of the Reviews,	8 00 "
For Blackwood's Magazine,	3 00 "
For Blackwood and three Reviews,	9 00 "
For Blackwood and the four Reviews	10 00 "

Payments to be made in all cases in advance.

CLUBBING.

Four copies of any or all the above works will be sent to one address on payment of the regular subscription for three—the fourth copy being gratis.

EARLY COPIES.

Our late arrangement with the British publishers of Blackwood's Magazine secures to us early sheets of that work by which we are enabled to place the entire number in the hands of subscribers before any portion of it can be reprinted in any of the American Journals. For this and other advantages secured to our subscribers we pay so large a consideration that we may be compelled to raise the price of the Magazine.

☞ Something may therefore be gained by subscribing early.

NEVER DESPAIR!

KELLEY & CO'S HIGHLY CONCENTRATED

SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives Annually!!

9,000 CASES

Of SCROFULA cured by it this year and 5,000 Cases DYSPEPSIA and HUMORS of which proof can be furnished. This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use. It is put into the Bottle its FULL STRENGTH and power without reducing it and this is done for the special benefit of those who use it, as it is objected to all other Sarsaparillas that they are Weak, Clumsy, Adulterated, Sickish, and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other and Six Times Better, Safer, Surer, and Cheaper than all others. THIS Sarsaparilla has bestowed on it some of the best Medical Talents and Skill in the world, and CURES all the Sickness KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES astonishing as it may seem, that he actually CURED a case of Consumption with Kelley & Co's Sarsaparilla and says that there is no medicine in which he has so much confidence for Diseases of the Lungs." Some will marvel at this REMARKABLE Cure, but hundreds are knowing to the fact. This INCREDIBLE Sarsaparilla is also doing wonders in foreign cities. And says

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England, that there is no other medicine which is CAPABLE of doing so MUCH GOOD and yet is INCAPABLE of doing injury. What distinguished compliments are these? Never was a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails. The

Severest, Scrofulous Humors,

where the flesh falls off the bones—the bones are diseased and the PARTS OF DEATH seem ready to strike the sufferer. And the reason for this is, that it makes the BLOOD perfectly Pure Rich Healthy Quick Free Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful, Strength wasting, Appetite gone, Pulse weak, or Feverish, Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public hail it as the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas is, that it does not temper with the patient or prolong his sufferings. But it first attacks the disease and then it, then removes it, then brings up the flesh and strengthens in a manner quite pure Blood so that the cure is always thorough and permanent. Others only scatter or back in the disease but this EXTIRPATES it wholly from the system—this saves the patient alive while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that Medical Colleges, Professors, and Physicians always prefer it for the sake of its Superiority. Try it all you who are seeking the PRICELESS BLESSINGS OF HEALTH.

Ladies, Married and Unmarried!

It is for you especially that this Sarsaparilla is made, as the "HEALING ART" has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought, hence it is that all the medicines which are used with the hope of Cure so invariably and entirely fail. But this Sarsaparilla has the SPECIAL ability, to cure every Disease Affliction or Pain, which comes under this head. It regulates the secret one—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirit—cures pulpitation of the Heart—removes Blotches, Pimples, Freckles.

None genuine unless signed on the wrapper Stephen Jewett & Co with a pen to whom direct all orders.

Prepared by STEPHEN JEWETT son of the late Dr STEPHEN JEWETT of Rindge N. H.

Principal Office,—No. 30, India Street, Boston.

Please read the following certificate of a highly respectable and aged gentleman.

RINDGE, N. H. April 1 1848

To all whom it may concern:

I the undersigned do hereby certify, that I was acquainted with the late Dr Stephen Jewett from my childhood up to the time of his death and having been his nearest neighbor I can testify to his medical skill and knowledge of Botany with hundreds of others now living, and that in the year 1814 I was afflicted with jaundice palpitation of the heart, pain in the side, and general debility, so as to be unable to attend to any business and having a neighbor of the late Dr Stephen Jewett I had recourse to his far famed Bitters and Plaster and by their use was permanently cured. Since the above named date, I have used Dr Jewett's medicines with equally good effect, prepared by Stephen Jewett son of the late Dr Stephen Jewett of Rindge N. H. and I cheerfully recommend them to the public as safe and final able medicines—and being composed entirely of vegetables I think them far better and safer than the nostrums of our cities than medicines composed of minerals or foreign nostrums. Try them and judge from facts and experience. I consider Dr Stephen Jewett's Strengthening Plaster far superior to any external application, for the purposes I wish it was recommended of any that I have ever known.

EBENEZER BLAKE

DR STEPHEN JEWETT'S

Health Restoring Bitters.

These Bitters, acting as they do upon the Stomach Liver and Bowels removing all the morbid secretions thereby purifying the blood and invigorating the digestive organs not only cure diseases that already exist, but they also fortify the system against all attacks of disease. It is a common remark among those who have used Dr Jewett's Bitters that they have but little fear of being sick. The remark is strictly true, for while the stomach and bowels are kept in a good condition and the blood pure all the great predisposing causes are removed and the whole system is fortified against those morbific influences which under less favorable circumstances would have engendered perhaps a fatal disease.

In order that the public may know that they are offered a truly excellent article for sale, I append the following certificate which may be seen with numerous others in their original by calling on the proprietor.

BOSTON, May 15 1848

To all whom it may concern:—This may certify that I have been for years troubled with a scrofulous humor which has been very troublesome, and was fast undermining my health and had severe pains in the back, loss of appetite, languor and general debility.

A short time since I commenced taking Dr Jewett's Health Restoring Bitters and was soon relieved from my humors and pains left me my appetite improved and my health has not been so good for years all of which I attribute to Dr Jewett's Health Restoring Bitters.

CHAS. H. RUSSELL Beach Street

DR STEPHEN JEWETT'S

Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused either directly or indirectly by diseased Lungs and Throat. Why is this great sacrifice of human life? How happens it that the brightest intellects, of the highest promise the hope and support of declining years are cut down in early life? Why is it that so many families have been made desolate by that relentless destroyer, Consumption? And how happens that so many interesting and lively children are cut down every year by those direful diseases, the Quinsy and Croup? Let these diseases are incurable? Physicians will tell you these diseases can be cured,—if taken in season.

It is true these diseases can be cured with almost absolute certainty—if taken in season. Every body should be aware of this fact and provide themselves with Dr Jewett's Pulmonary Elixer.

The following certificate among numerous others which have been received are appended for the benefit of those who desire to see certificates.

WINCHENDON Mass March 10 1848

Stephen Jewett—Dear Sir—I feel it a duty to you and to the public generally, to inform you all, who may have been afflicted as I have that I have been entirely cured of a severe and long continued cough by one bottle of your Pulmonary Elixer—For months I have been a great sufferer. I had pain in my left side, sore throat, constant cough, and raised a good deal of bloody matter. My strength was gone and my flesh was wasting away. I took many things without benefit and was steadily getting worse, till I procured your Pulmonary Elixer which has cured me, and I cheerfully recommend it to all who are troubled with coughs.

Yours truly

THOS CUMMINGS

DR STEPHEN JEWETT'S

Strengthening Plaster.

These Plasters possess the property of removing Pain, easing Lameness, Cramp, Pain or Weakness in the Back, Joints or Side, Rheumatism, Weak Stomach, &c., and when used in connection with the Bitters in Liver Diseases will prove very beneficial in removing the peculiar pain between the shoulders and in the side and back, well known to those suffering with such diseases. This Plaster from the quantity and quality given is vastly cheaper than and superior to the "Poor Man's" or any other Plasters, and can be made any size wanted, without waste. One roll will make five good sized Plasters. A single trial will be all the certificate necessary.

DR. McKENNEY'S

COSSACK SALVE!!

An Invaluable Remedy!

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Joints or Sore Throat, Chronic Eruptions of the Skin and all Scrofulous Diseases, Rose Cancer, Scald Head, Colds, Strains, Stiff Neck, Chilblains or Gray Head, Sore or Inflamed Breast, Wind Gall or Pain in the Stomach, Piles, Corns, Warts and Common Sores and Cuts and Bruises of all kinds.

In bringing this article before the public, we are aware that we labor under no small disadvantage amid the multitude of "All Heal Ointments" and "Lazaretos" now advertised as the "most effectual and certain cures" for all diseases indiscriminately to which man or animals are subject.

A history of this Salve and the wonderful cures it has effected in the course of many years will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing.

We would only add that we have undertaken the task of manufacturing the celebrated Salve at no inconsiderable trouble and expense, but such as an matter of reputation and pecuniary benefit as in compliance with the earnest and repeated solicitations of friends and those who have experienced the wonderful medicinal and all healing properties.

To such we feel that we do not expect to realize a large pecuniary return for our expense and trouble unless it be unfeigned and true. Let the sufferer testify that it, through us, are richly paid and the increasing sales on his own evidence—the Public are receiving a full and ample equivalent.

As we have already intimated we do not and shall not rely on and the empty puffing of the Press or the former benefits to be derived and will make it all the way as far as they have been or hereafter may be entirely voluntary and unsolicited.

The Salve is now before the Public!

They will speak for themselves and their virtues and medicinal properties. We believe were it free to ourselves—to do so would be superfluous.

Here are some of the many certificates—

The subscriber was all of a sudden Fever Sore upon his leg, which was so severe that in the fall of 1845 he was induced to visit the sick to Boston. After using many remedies without success he supposed from Salve obtained from Dr McKenney and continued its use for a few months and he was entirely cured, and he has had no return. He does not hesitate to recommend it for the purpose with confidence.

DANIEL SEAVEY

Dexter (Maine) Mar 18 9

This certifies that for six years I have been afflicted with a Fever Sore for more than a year and having tried various means with effect, a cure without success, which I at last obtained by using McKenney's Salve which effected a cure in less than two months.

I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle and found it equally beneficial. It can truly be called the All Healing Salve.

Mr. Judd's Lyceum Lecture.

The lecture of Rev Mr Judd, of Augusta, before the Lyceum, on Monday evening was upon the Dramatic Element in the Bible It has received the general commendation and applause of the Lyceum, more than any single lecture of any year The subject was learnedly and skillfully treated, and several scenes were unfolded with the skill of a thorough artist

For the want of suitable notes, we avail ourselves of the labors of a cotemporary at Augusta, for the following sketch of the lecture

By the term dramatic element, the lecturer did not mean that which was suited for *stage action*, the Bible could never be *acted* in a theatre, it is to be read and studied and felt, and there is that in it more moving than all scenic action The drama was originated and for centuries used only as a religious exercise Its first embodiment was in the *chorus* or choir, who sung or answered in alternate strains This was cultivated by both the Jews and the Greeks With the Greeks it became theatrical, so to speak, though still a religious rite — With the Jews it retained its truly sacred character The Greeks transformed the chorus into the theatre, the Jews had no the tre The reason of the difference, the lecturer found in their different theology The Jews were monotheists, the Greeks polytheists The Greeks could introduce their God upon the stage, to be seen and play his part The Jews were shocked at such a thought To them God was the Invisible Jehovah

Yet the Jews were not without the drama, the pure dramatic element existed in their lyrics, which the chorus performed Some of the Psalms of David are sublime examples

The Rev gentleman cited very many illustrations of this element as found in the Old and New Testaments and made comparisons between some of Shakspeare's characters and some of the characters in the Bible, as for instance, comparing Lady Macbeth with Jezebel

At the close of the lecture the Rev gentleman alluded to the interview, at the house of Simon the Pharisee, between Christ and the woman, "which was a sinner, and beautifully described the touching scene, which as he thought, contained the purest dramatic element by far more expressive than all stage effect

☞ The Portland Advertiser doubts the real existence of such a man as Leonard Jones, of this State, whom President Polk has appointed Consul to Chagres As the two or three allusions we have heretofore made to this appointment have not attracted the attention of the Advertiser we now most distinctly declare to our friend of the Advertiser that MAJOR LEONARD JONES, (be careful of the type, boys) is a resident of this city, a man of substance, and perceivable to the naked eye Moreover, he possesses much of the prevailing virtue of Bangorians, modesty, and declines accepting the office He desired to be appointed to Panama, but was appointed to Chagres—He asked bread and was offered a stone

The Advertiser's paragraph on this subject is considered here a very rich joke

Mr. Clay and the Kentucky Democracy.

At a caucus of the Locofoco members of the Kentucky Legislature held at Frankfort on the 23d ult, the following resolutions were unanimously adopted

Resolved, That while we do not deem it a good policy for the Democrats of the Legislature to unite in caucus in supporting any particular individual of their party for the office of Senator of the United States, on the 1st proximo, yet we are determined not to vote for HENRY CLAY on account of his *Free Soil principles*, and as we understand, his *Emancipation tendencies*, nor will we support any other man, whether Whig or Democrat, who is known to entertain similar views on these questions of National and State policy

Thus it will be seen that, while the Locofocos, and particularly the 'Abolitionists of the North, hold up the great Kentucky Statesman as the arch enemy of Freedom, Southern Locofocoism is denouncing him for his 'Free Soil principles and 'Emancipation tendencies — Doubtless the same object—a desire to make party capital—actuates these gentlemen in both latitudes We trust the grave charge of 'Free Soil principles and Emancipation tendencies preferred against Mr Clay is true, while it is of course sufficient cause of 'Democratic opposition Nobody can reasonably find fault with this It would be unnatural to expect anything else But we know, and so do his revilers that when they charge HENRY CLAY with being inimical to Freedom and Progress they make an accusation at once unfounded and malicious

☞ In dull business times, when men are inclined to be a little dumpish and uneasy, every rich man in the community and every one with ready cash means, should make it a point of the first importance to pay off every debt he owes to the trading and the industrial community, his butcher and baker, shoemaker and minister, physician, printer and painter In this way many dollars may be set in motion which in the course of a few days may be the means of cancelling hundreds of debts

☞ The "Courier des Etats Unis" censures the official organ and Mr. Polk severely for their excuses in the Portugal matter That journal but foreshadows to us what all Europe will say of these miserable subterfuges and evasions

☞ Yesterday morning was the coldest of the season so far— the mercury ranged in different localities from twenty-two to twenty eight degrees below zero

The nominations of the following gentlemen were confirmed by the Council on Friday —

JOSHUA W. HATHAWAY, Bangor, J. D. C. for Eastern District

ARNOLD BLANEY, Wiscasset, Judge of Probate for Lincoln County

ISAAC REED, Waldoboro and WM OAKES Jr Sangerville, Trustees of Insane Hospital.

The Council were engaged in counting the votes for Senators — [Argus

☞ Plank Roads are extending in every part of the Northern and Western States Being made at infinitely less cost than railroads, they are of great advantage, being an intermediate step between the rough miry road and the great highway traversed by steam

At Rowley, Essex county, Mass, on Friday, Jan. 26, two men, were engaged in removing the porch of a building, and, while putting it upon a sled, without sufficient precaution, it fell and crushed one of the men to death breaking his back and neck

For the Whig and Courier.

Railroads for Farmers.

'The United States are destined, hereafter, to feed the starving nations of Europe'

Old Saw of 1847

It is now a year or more since I suspended running my cars into your depot This suspension was in consequence of the belief that, during the canvass for President, your columns in the opinion of the readers of your paper, would be more profitably occupied with political matters, and besides at the close of 1847 the public mind had been led astray by false estimates, and false predictions for the future, based upon these estimates

I propose now, to send in occasionally, a train loaded with crude country notions, and if not found adapted to the market or the times, please to put on the 'finish' to make them pass I am induced to do this, at this time, for the benefit of Bangor and the adjacent country The business of Bangor, it is said is greatly depressed, at this time, and the question is, how can it be revived One party, or class, contend that it can best be done by manufacturing, and you stand at the head and your journal is the mouth piece of this class The other class maintain that railroads are the only means of bringing prosperity to Bangor The City Advertiser and its editor speak for this class Both parties seem to consider the country within the limits of communication by the ordinary means of transportation and travel, as of no account of consequence as effecting the prosperity of Bangor

The railway mania, in some countries has partially subsided, and it may be profitable, perhaps for the people of Bangor and the adjacent country to look back upon the wrecks of fortunes it has made This is the more important now, for the mania still rages here, to some extent, and the coming session of the Legislature will be beset with applications for new Rail Road grants

It was stated a short time since in the Railroad Journal and copied extensively into the newspapers of the country that 'at the close of 1848 one thousand millions of dollars had been expended in the construction of railroads — This sum, enormous as it is, is more likely to be below the sum actually expended, than above it

In a recent number of the London Times newspaper, it was said that, one hundred million pounds sterling or five hundred millions of dollars had been lost in England alone, by the construction of railways It was further stated, in another number of the same Journal, that within a space since the South sea bubble had been as disastrous as speculations in railway shares — Shares that cost five hundred dollars at par, were run up to thirteen hundred, or one hundred and sixty per cent above par, and when the revulsion came they went down to 475 or 5 per cent below par These shares were in the great western railway, the leading way in England Here then we have the statement of the 'London Times, the leading Journal in Europe, if not the leading journal of the world on the subjects of commerce, currency and finance, that a sum, equal to one half of the sum invested in railways all over the world has been lost in England in a very short period of time It is not hazarding much to say that the sum lost in Europe, by the construction of railways, is equal to the whole sum invested

The construction of a railway is simply opening a new channel for commerce and trade — Commerce and trade produce nothing, and when a new channel is opened, it is upon the supposition, to be sound, that the country, or place from which it starts, has a surplus which the existing channels do not require Railways have been constructed, in many cases, upon the false ground of creating trade The building of a ship, as is well known does not create a freight for her

The construction of a railway is entirely a commercial enterprise In fact, the policy of the world is, and has been for the last ten or fifteen years, or more, commercial the world is governed by the commercial and trading interest and its policy is based upon commercial estimates Commercial estimates are always false, or, at least, three quarters false—false to the producer, false to the consumer, and false to the country, and not always true to the commercial interest even. It is a fundamental principle in commerce and trade, to buy cheap, and to sell dear, and to compass these ends it is necessary to put forth high pretending estimates, for accuracy of the production and consumption of countries, and section of country, and if these estimates err it is always, very incorrectly no doubt, in favor of the interested party

In this and the following numbers I propose to review some of the false estimates of 1846 and 1847

It was estimated by a writer for the Whig and Courier, that after the completion of the Atlantic and St Lawrence Railroad, and a road from Bangor to connect with it Flour and Pork could be brought to Bangor from the west of Cleveland Ohio, for one dollar less freight, than is paid by the present channels of conveyance — This difference in freight is just so much 'protection to home industry —so much protection to the farmers who must go to Bangor to market, and no where else The editor of the Advertiser proposes to build up Bangor by introducing foreign produce ion cheap upon the principles if the above estimate, cheap freights by railroad

When a political economist assumes the task of persuading a people to rely upon a foreign country, or a distant section of their own country, for the 6 st necessaries of life, bread and meat, he has but half performed his task, if honest in his purpose, until he has pointed out how the importations are to be paid for The western States take a thing from Bangor directly, and but very little indirectly Your party will say, Mr Editor, no doubt, that Bangor must direct her energies to the building up a great manufacturing interest. Manufacturing and railroads may in time, become auxiliary to the prosperity of Bangor, but in the present immergency neither can be made available

The great source of wealth and prosperity to every country, so minority or individual is the own labor skillfully applied The great and only reliable source of prosperity is prostrated in Bangor and the adjacent country Never, I believe, since the close of the war with England, has there been so many persons seeking employment, without finding it, as the present winter This state of things does not result from the want of manufacturing establishments or railroads, but in the natural result of a false policy, based upon false estimates

For the last few years, extraordinary estimates have been put forth, of the natural resources of Maine These resources have been enumerated nearly as follows, 'her extensive sea coast, her spacious harbors, her majestic rivers, her splendid waterfalls, her noble forests, her ship building interest, her quarries of granite, her mountains of granite, her quarries of slate, her mines of iron, her fields of ice, and her bracing north westers

Relying upon the estimates put upon these resources, the people of Maine have been led to believe that it was their best policy to rely upon the west for bread and meat Bread and meat they must have, while the resources to pay for them have nearly all failed The four first, seacoast, harbors, rivers, and waterfalls are not transportable on rail roads, or on ship-board and consequently will not pay for bread and meat in the west The next item, the lumbering business, has gone down stream, and the operators have gone down with it The ship-building resource has gone a gold hunting to California — Lime burning merely returns a spare diet to those who pursue it Our mountains of granite and slate as the everlasting hills Slate quarries are but feebly worked In our iron mines, the fires are extinguished Fields of ice, are increasing in thickness and solidity, and, if bracing north westers, we have a promise of a bountiful crop'

In November last, I gave notice that I wanted to put on board one or two hundred cords of wood Since that time I have had nearly two hundred applications and some days 4, 5, and 6 or more a day, and still continue to be made I gave employment to eight, and four of these required an advance of bread and meat before they could lift an axe or strike a blow They had families dependent upon their labor The men I employ are as good a class of men as the average seeking employment But few persons, at this time, are willing to employ labor and pay in these articles, for they are imported and held for cash, or some article of export — The great wants, then, of the laboring classes in Bangor and vicinity is bread and meat, or the necessaries of life, and employment to pay for them And now are these wants to be supplied? We are told by extending railroads and increasing manufactures This policy has been tried in Europe and what has been the result Such a revolution in trade, and such a revolution in governments, as 1848, in the history of the world affords no parallel The revolution in our own government, and the placing Gen Taylor in the Presidential chair, are to be ascribed to the same cause

A GLENBURN FARMER

Foreign Items.

It is announced that the British government are about to apply the pruning knife to the extravagant expenditures of the several departments, the army and the navy are to be reduced, the Customs and Excise Boards are to be united, and other economical measures to be adopted—at least, such are the rumors of the day It is said that Mr Cobden will engage most earnestly in the attempt to reduce the expenditures of Government ten millions sterling

A grand project is in contemplation in Germany, of uniting the North Sea, between Kiel and the estuary of the Elbe Surveys it is said, have been made, and the plan is pronounced practicable, by means of a canal without a lock, to pass between Kiel to Brunsbuttel on the northern bank of the mouth of the Elbe, and on the other side, to Cuxhaven, on its southern bank The ground is said to offer few difficulties, being flat and nowhere raised much above the level of the sea

The execution of this work will be entrusted to the imperial troops, to be collected in large numbers in the Duchies during the spring Kiel is considered as singularly adapted for such work, affording a ready vent to German commerce whilst at Cuxhaven a fine naval harbor might be constructed by the outlay of about five millions of dollars by which means Germany would be enabled to wield a powerful navy, commanding both the Baltic and the North Sea

A statement which has been laid before the municipal corporation of the city of Paris shows the enormous extent of the *gaspillage* that took place after the revolution of February The expenditure of the city of Paris alone shows a deficiency of eighteen millions of francs, or £72 000 sterling Of this amount vouchers to produced to show how fifteen millions have been expended, but of the other three millions there is not a single trace It has vanished from the coffers of the city, and that is all that can be said

The Dead Mother.

BY MAJOR PATTEN, U. S. ARMY

"She sleeps! how long she sleeps! the sun has sunk beneath the West,
And risen thence—yet still she keeps that deep and quiet rest!
Why did they stand beside her couch and weep with such sad mien?
Come hither, brother, thou and I will gaze upon her sweet face!
But stay! we will indeed there yet, but wait awhile instead!
The sun has fled, and prayers are said, and all around is still,
Except the spirit winds that rise like wailings on the air,
Then will we step in silence forth and gaze together there"

"Sister tread softly!"

—"Hark! that sound!"

—"Twas but the midnight hour,
Tolling so harsh and heavily from the old oaken tower!
Come hither, sweet!"

—"Wait, brother, wait, my eyes begin to swim!"

"Tis but this dull sepulchral lamp which makes their vision dim!"

—Nay sister, tremble not—'tis true the time is long and drear!
And fitfully the taper gleams which lights us to the bier,

A NATURAL
HAIR DYE!
BALLARD S IMPROVED LIQUID HAIR DYE is the best preparation that we have ever seen for colouring the hair It will positively restore grey Hair to its original color whether auburn brown or black and will do it in the most natural looks retaining the glossy and softness of the original Sandy light or red hair can be matched with any darker shade
From numerous laudatory testimonials which may be seen at the manufacturers wholesale depot No 51 Cortlandt street New York the following from the celebrated Cristadoro of the Astor House is presented —
No 6 Astor House New York Sept 21 1843 —Mr O M Ballard—Dear Sir—It is but justice to you to say that of all the preparations for dyeing hair I have tried none has answered so well for the purpose as your Improved Liquid Hair Dye and with a great deal less trouble than any other I give you this testimony of my solemn conviction that it is worthy the patronage of all who may wish to exchange grey, light or red hair for a beautiful auburn or jet black, and from the peculiar softness and lustre which it imparts to the hair the ladies cannot but give it a decided preference Yours respectfully

HART'S VEGETABLE EXTRACT

Is the only remedy that can be relied on for the permanent cure of Spinal Complaints, Nervous Complaints Irritation of Nerves, Nervous or Sick Headache, Nervous Fevers, Apoplexy Affections, Apoplexy Fits, General debility Deficiency of Nervous and Physical energy on all Nervous Disorders, including the most dreadful of all diseases that ever afflict the human race

EPILEPTIC FITS,

or Falling Sickness, Hysterical Fits, Convulsions, Spasms, &c Dr Hart would impress it on the minds of the afflicted, that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases As its tendency is to insanity, madness and death, the most

SKILLFUL PHYSICIANS

of Europe, as well as those of our own country, have pronounced epilepsy incurable And it has been so considered by society, but it is most important at all times and in all cases to Doctor Hart's medicine has been proved to be a most powerful remedy

DR HART'S CURES

are the result of his great experience and superior skill and experience, in his practice over the last twelve years, in which time he has cured thousands of the most distinguished citizens of all parts of the country, who are ready to testify to his skill and friends, who are thus afflicted with the severest cases

WE QUOTE THE LANGUAGE

of those who have been cured by this valuable medicine One says I have suffered beyond my power of description, but now I am free to bring fully restored to health and happiness Another says I think God bless Dr Hart for his medicine I also feel it my duty to proclaim it to the ends of the earth that I was miserably afflicted with fits and relief Another (who was

EMINENT LAWYER,

and well known in this city) says my son has been afflicted for years with Epilepsy but is now enjoying good health from the Vegetable Extract Dr Hart, says he, should be sought to be rewarded to the ends of the earth An the same Language is entirely inadequate to express my gratitude to Dr Hart for having been the means under the blessing of God of restoring me to good health after having been afflicted with Epilepsy in its worst forms for more than twenty three years and my morning and evening adoration of praise in thanksgiving shall continue to ascend to that God who has afflicted but to make me whole"

Mrs J Brooley 115 Orchard street New York states that she has been subject to Fits for many years and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract

Dr Charles A Brown of Dover Rutledge Alabama, who is one of the best Physicians in the State, says that he has for a number of years been baffled by the use of the Vegetable Extract and he has no hesitancy in pronouncing it the best in every case of Epilepsy with which he has met in his annual diagnosis

Curtis G Stephens, Esq formerly Postmaster at Lime Mills Lewis Co, N Y, now living in New Castle Pa states that for many years he was in the habit of being afflicted with Fits and he has not been troubled with Fits since he first used Dr Hart's Vegetable Extract and he believes that it has entirely cured him of his dreadful disease

Mr Stephen B Pratt, corner of Sixth Avenue and Twenty sixth Street, New York states that Mr Charles L Boughton, a member of his family, has been so severely afflicted with Epilepsy for many years that he was obliged to relinquish his business He having used Dr Hart's Vegetable Extract says Mr B has been restored to perfect health and left the city for the State of Ohio to resume his business

Rev Mr Smith Rector of St Peter's Church, Spotswood, New Jersey, who has been afflicted with Epileptic Fits for more than forty years, states that he has used Dr Hart's Vegetable Extract, and his health has been so much improved that he hopes he may be blessing to have no more Fits

EPILEPTIC FITS,

For twenty seven years and a half, cured by the use of this truly wonderful medicine

Read the following remarkable case of the son of Wm Ege Esq of Philadelphia Dear Sir I feel a debt of gratitude to you for your medicine I was afflicted with Epileptic Fits for twenty seven years and was not free from them for more than forty days at any time After travelling through England, Scotland Germany and France consulting the most eminent physicians and expending my money on medicine, medical treatment and advice through which I felt my health rapidly sinking I returned to this country in November last, without receiving any benefit whatever and was in a dying state

FITS FITS FITS!

Dr Townsend I am happy to send his Sarsaparilla cured me of Fits I received more than a dozen fits, yet was surprised to hear on the following Sunday morning I was perfectly well Dear Sir I have a little girl, seven years old, who has been several years afflicted with Fits, we tried every thing for her, but without effect, at last we thought we could find no accomplished cure, but we resolved to try your Sarsaparilla, and we are very glad we did for it has only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise she is fast becoming a rugged healthy child for which we feel grateful Yours, respectfully

JOHN BUTLER, Jr

FEMALE MEDICINE.

Dr Townsend I have received the sovereign and speedy cure for Incipient Consumption Barrenness Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter what be the result of inherent causes or causes produced by irregularity, Illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and prostrate, from taking it at once become robust and full of energy under its influence It immediately counteracts the nervousness of the female from which is the great cause of Barrenness It will not be a subject of abuse, in case of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Thousands of cases where families have been without children for years after using few bottles of this invaluable medicine, have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This medicine is recommended as especially prepared to refresher to female complaints No female who has reason to suppose she is approaching that critical period, "The turn of life" should neglect to use this as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period may be delayed for several years by using this medicine Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement, as it prevents diseases Swelling of the Feet Backache Costiveness Cramps, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the ashes used in some preparations, enriches its own production in the human face divine, as well as in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids of the coloring of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that attract and admire but none can describe This beauty is the offspring of nature—not of powder or soap If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to her cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla Thousands who have tried it are more than satisfied, are delighted Letters of every station crowd our office daily

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff a great remedy for females, &c, &c, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, think this good business of Dr Townsend's Sarsaparilla is unexplored, invariably recommended female complaints, and providently they did not. A number of these Magnetic Pills, &c, are injurious to females, as they aggravate disease, and moreover the destitution

The Great Remedy for Gonorrhœa

GLEET, Stricture, and all analagous complaints, is Dr. DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union during the last 40 years This only reason for introducing the Paste in this public manner, is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks

Dr D most solemnly affirms that during his practice of forty years this Paste has never, in one single instance, failed of effecting a cure in a few days, without any change of diet or hindrance from business He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged, entirely cured

If the unfortunate instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emaciated bodies and sallow countenances as we do at the present time

☞ In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchaser on returning the empty boxes

For sale only by the original inventor and sole proprietor, Dr PETER G DOUGLASS, at his Office, No 55 Union street Boston at $5 per box where he can be confidently consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted

The following letter narrating one of the most remarkable events in the annals of Medical Science is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and exalted reputation —

Newark New Jersey July 12 1848

Dr A H Christie—Dear Sir You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows

For about twenty years I had been suffering from Dyspepsia Every year the symptoms became worse and I obtain permanent relief from any course of medical treatment whatever Many physicians were skillful and excellent men, but here their prescriptions failed About fourteen years since in consequence of frequent exposure to the weather in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism which for year after year caused me indescribable anguish In the severest paroxysms the skill of my physicians sometimes afforded me great relief but this relief was only temporary Further in the winter of 45 and 46 in consequence of preaching a great deal in my pastoral charge in churches in this region I was seized with a violent cold which left a cough of the most aggravated kind, accompanied by a severe pain in the chest I tried to do this but became so feeble that I was obliged to quit all work and was confined to the house until about four weeks since During that time I received the best medical attendance and tried nearly all the medicines which are recommended in such cases but could find no relief but grew worse, and for the last three weeks was confined to my bed Two of my physicians gave me up as in recovery But for the use of the Galvanic Belt and Necklace and the Galvanic Balsam and immediately procured a bottle This gave me instant relief and six bottles have broken up my cough, and I am now able to continue to resume, with advancing health my usual occupation

BEWARE TO-DAY!
